

Maxima

Designed for exceptional passenger experience

Maxima

Since 2016, the Maxima has been a trusted solution for Health Care Trusts and Local Authorities across the UK. Now, the enhanced Maxima takes comfort, accessibility, and efficiency to a new level for passengers and operators alike.

Step inside and discover the ‘Sky View’ windscreen, a key innovation that boosts headroom and fills the saloon with natural light, creating a bright, open feel.

The new, ergonomically curved entrance step improves comfort and access, while the repositioned entrance door enhances driver visibility and interaction with boarding passengers, significantly improving safety.

The driver’s experience is also paramount. The redesigned cab offers superior visibility and comfort, with an optional Camera Mirror System to minimize blind spots. In the passenger saloon, there’s new cove panels, updated LED lighting for energy efficiency, and a fully tracked flat floor for ultimate layout flexibility. This is complemented by slip-resistant flooring and configurable 2+2 seating for up to 32 passengers plus driver, ensures a safe and adaptable environment.

Crafted on a durable composite body structure, the Maxima is built to perform, and built to last.

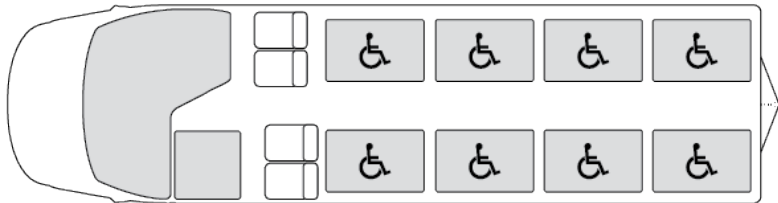

Configuration 1

Passenger Total	Max. Seated	Max. Wheelchairs
32	32	0

Configuration 2

Passenger Total	Max. Seated	Max. Wheelchairs
12	4	8

Technical Specification

Key facts

- Full length flat floor
- Under floor passenger lift
- Stainless steel body frame for extended life
- 'Sky View' windscreen enhances the on-board environment
- Configurable seating options for maximum operator flexibility

Base chassis	Iveco Daily 72C18
CC	2998
Output	170 / 125 kw @ 3500
Gross vehicle weight	7200 kgs
Transmission	8 Speed Auto
No. of cylinders	4
Emission standard	Euro VI
Length (mm)	8518
Width (mm)	2320
Height (mm)	2870
Wheelbase (mm)	4750
